Hi Blair,

It was good speaking with you earlier and I look forward to meeting you one day soon. Please let me know about potential meeting dates and times.

As I mentioned, please feel free to distribute the attached informational flyer with mail theft prevention tips and the Inspection Service phone number. One of the best deterrents is to not leave mail in any box overnight or for extended periods of time.

If any property managers or HOAs in your area are considering upgrading or replacing their building's mailboxes, they can contact the Alameda Carrier Annex Post Office for approval and coordination to recover and reinstall our USPS lock - (213) 617-4405. Any changes to boxes must have the approval of the Station Manager and/or Postmaster.
